Summary

I have over three years of experience working with ERP Tools, during which I have built and customized numerous modules for both customer-facing and internal projects. Currently, I am focused on integrating a third-party module to retrieve data from one source and seamlessly post it to another. My expertise also includes server setup, deployment, and configuration, as well as proficiency in data migration, ensuring efficient and reliable system operations.

Work Experienced

e-Zest – An Accion Labs Company, Pune, Maharashtra, India

Senior Software Engineer | April 2025 – Present

- Passionate and results-driven Senior Software Engineer with over 3 years of experience in designing, developing, and delivering high-quality software solutions.
- Specialized in building scalable, reliable, and efficient systems with strong focus on clean architecture and performance optimization.
- Mentored junior engineers, collaborated cross-functionally, and contributed to the full software development life-cycle—from idea to production.
- Solved complex engineering challenges in startups and enterprise environments, driving impactful software delivery.

Core Competencies:

- Back-end Development: Python, XML, JavaScript
- Cloud & DevOps: AWS, Jenkins
- Distributed Systems & Micro-services Architecture
- Agile & CI/CD Practices
- Code Quality, Testing, and Performance Optimization
- Team Leadership & Mentorship

Professional Highlights:

- Performance Optimization: Resolved critical project-wide slowness issues, improving system efficiency and user experience.
- Version Migration Expertise: Led a full migration from Odoo v16 to v18 with zero data loss and minimal downtime.
- Cross-functional Collaboration: Worked with IT teams to fix Microsoft 365 licensing, enabling Intranet ID-based user authentication.
- Cloud Cost Reduction: Identified inefficiencies in AWS usage, resulting in reduced monthly billing.

Software Engineer : Aug 2023 – Aug 2025

- Designed, developed, and maintained high-quality software solutions to drive business growth and efficiency.
- Collaborated with cross-functional teams to deliver scalable and robust applications leveraging modern technologies and industry best practices.

Key Technologies: Python, Odoo, Django, PostgreSQL, API Development, Third Party Integrations

Software Engineering Trainee : Aug 2022 – Aug 2023

- Hands-on experience in the full software development lifecycle including coding, testing, deploying scalable applications.
- Worked closely with senior developers and cross-functional teams to build web-based solutions using modern programming languages and frameworks.

Key Technologies:

- Python, Odoo, PostgreSQL, XML

Skills

Languages: Python, XML, SQL

Technologies & Tools: Django, JIRA

API Testing Tools: Postman

ORM Framework: Odoo

Code Editors: PyCharm

Cloud Platforms: AWS (EC2, S3, ECS, RDS), Docker, CICD

Database: Postgresql

Version Control: Git, GitHub,

Other Tools and Skills:

- RESTful API development
- Strong grasp of object-oriented programming concepts (OOPs)
- Microservices architecture
- Agile methodologies (Scrum)
- Test-driven development (TDD)
- Continuous integration and deployment (CI/CD)
- Cross-functional collaboration
- Problem-solving and analytical thinking

Education

Jagadambha College of Engineering and Technology, Yavatmal (BE, Computer Engineering)	2018-2022
Athar Mirza Junior Ashram College, Kali DK (Science)	2016-2018
Bhauasheb Sudhakar Rao Naik Vidyalay, Mohadi (SSC)	2015-2016
